BIOAG
GROWING SYSTEM

Virgen™ WATER

Using a photonic water system can increase the potency level of the water itself, making it more effective. Increased absorption will lead to decreased water consumption. Increase Brix (nutrition) value.

Great Growth Increase with Much Less Water Usage

Virgen™

Heirloom Seeds

All crops start from a seed and Heirloom seeds have returned back to their roots. These GMO free seeds are carefully selected for purity and sought after worldwide.

Virgen™ HEIRLOOM SEEDS

BIO AG
GROWING SYSTEM

Virgen™ SOIL

Our soil is depleted of vital minerals, bacteria, and enzymes. The soil rejuvenator replenishes the fertility of the soil by softening, balancing, and repairing the soil.

Restore the life of your soil

I Did MY Part.

Virgen™
Plant Food

Our unique package is a complete system to grow nutrient dense crop. Every farm's soil is unique. Our technicians will test the soil for each individual farm or plot and custom design the necessary plant food for your property.
